

DOCUMENT #6 - ADULT EDUCATION OVERVIEW
REAL ESTATE AND APPRAISAL COURSES FOR ADULT AND/OR CONTINUING
EDUCATION

Real Estate Training Center offers over 500 clock hours of courses, which includes a wide variety of Real Estate courses. Request document #4 for a current list.

These courses cater to individuals who may or may not have retired, but are still interested in keeping their minds active. Who isn't interested in the real estate industry? After all, what drives the economy? Real Estate! Understanding the laws and procedures in Real Estate would, of course, be important to those interested in private investment in Real Estate as well.

Since courses are taught on Internet, CD, and/or textbooks, you may begin anytime and go at your own pace with more than enough time to complete. Because of the flexibility, all courses will fit into your schedule, rather than you having to fit into a classroom environment.

To top off this wonderful educational opportunity, you will be given a FREE instructor support "800" telephone number so that your instructor-type questions may be answered. You will also have a personal student representative to assist you in any way possible.
